Professional Summary

Results-driven MERN Stack Developer, Artificial Intelligence Engineer, and WordPress Developer with professional experience in developing scalable web applications, AI-powered solutions, and dynamic WordPress websites. Currently working as an Artificial Intelligence Engineer, building intelligent applications powered by Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), conversational AI, and chatbot technologies while integrating AI services into production-ready systems.

Experienced in React.js, Next.js, Node.js, Express.js, MongoDB, RESTful APIs, and modern JavaScript (ES6+). Strong expertise in WordPress development including theme customization, plugin development, Elementor, website optimization, and maintenance. Passionate about designing clean architectures, writing maintainable code, optimizing application performance, and delivering high-quality software solutions across web and AI domains.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Artificial Intelligence: Large Language Models (LLMs), RAG, AI Chatbots, Prompt Engineering, AI API Integration

WordPress: Theme Development, Plugin Customization, Elementor, Website Optimization

Tools: Git, GitHub

Cloud & DevOps: AWS, Docker, Jenkins

Languages: JavaScript, Java, C++

Work Experience

Artificial Intelligence Engineer

Jun 2026 – Present

Punjab Information Technology Board (PITB), Lahore

- Developing AI-powered applications using Large Language Models (LLMs) and Generative AI technologies.
- Building intelligent chatbot solutions for real-world business and government use cases.
- Implementing Retrieval-Augmented Generation (RAG) pipelines for accurate knowledge retrieval.
- Integrating AI models and external APIs into scalable production applications.
- Designing prompt engineering strategies to improve response quality and model performance.
- Collaborating with cross-functional teams to deliver AI-driven software solutions.
- Researching and evaluating modern AI frameworks, models, and emerging technologies.

WordPress Developer

Jan 2026 – May 2026

Marshmallow Advertising (Pvt.) Ltd, Lahore

- Built and maintained dynamic and responsive WordPress websites.
- Developed websites using WordPress with strong knowledge of themes, plugins, and Elementor.
- Customized themes and created reusable components based on client requirements.
- Managed and extended functionality through plugin development and customization.
- Optimized website performance, speed, and SEO for improved user experience.
- Collaborated with design and marketing teams to deliver high-quality solutions.
- Handled debugging, updates, and maintenance of live websites.

MERN Stack Developer

Jun 2025 – Aug 2025

Zayyan Soft Tech (Remote)

- Built scalable full-stack applications using the MERN stack.
- Developed responsive user interfaces using React.js and Tailwind CSS.
- Integrated REST APIs and optimized frontend performance.
- Designed backend services using Node.js and Express.js.
- Improved database performance using MongoDB optimization techniques.

Projects

Alumni Connect Platform — Full Stack Web Application

2025

- Developed a scalable full-stack platform for student-alumni networking using React.js and Node.js.
- Implemented real-time messaging features for interactive communication.
- Designed secure authentication and role-based access control.
- Built REST APIs and optimized MongoDB queries for performance.

Goggle Vision AR — Virtual Eyewear Try-On Application

2026

- Developed an AR-based mobile application using Unity and AR Foundation.
- Implemented real-time face tracking for accurate 3D model placement.
- Optimized rendering pipeline for smooth performance on mobile devices.
- Designed interactive UI for enhanced user experience.

Personal Portfolio Website — MERN Stack

2025

- Designed and developed a modern, responsive portfolio using React.js.
- Built reusable and modular UI components for scalability.
- Integrated backend APIs for handling contact forms and dynamic data.
- Optimized performance and SEO for better visibility.

Education

COMSATS University Islamabad, Wah Campus

2022 – 2026

Bachelor of Science in Computer Science

Certifications

Introduction to HTML, CSS, and JavaScript — Coursera

Soft Skills

- Problem Solving and Analytical Thinking
- Strong Communication and Team Collaboration
- Adaptability in Fast-Paced Environments
- Client Interaction and Requirement Understanding

Languages

Urdu: Native

English: Fluent

Chinese: Beginner
